Twenty years of bathroom obsession

We understand bathrooms. Over 20 years, the bathroom has evolved from a practical space for washing and cleansing to an emotional one focused on relaxation and rejuvenation. In response, Crosswater has curated an extensive range of products to delight our customers, always.

Our high-quality design-led furniture collection caters to the essentials of bathroom storage, including a wide selection of basin units, mirrors and cabinets, together with a premium selection of bathroom towel warmers and those luxury finishing touches that transform everyday bathing routines into an indulgent experience.

All this, combined with a stylish selection of high-performance toilets & countertop basins available in a multitude of finishes including new Matt White ensures that you have all the inspiration to create your perfect bathroom experience.

Choosing your Bathroom Furniture

Before looking for furniture, think about what you will need to put away in the bathroom itself.

Bathroom furniture should be stylish whilst comprising great construction and performance qualities and above all having the ability to provide storage space for an entire family today and tomorrow. Toilet rolls, toiletries, cleaning products, cosmetics and children's bath toys; try to think about the future, as the family grows will you need more space? If so, choose the largest storage furniture to fit your bathroom, then you don't have to try to squeeze extra furniture in later.

step 1

CHOOSE A SIZE AND TYPE

The best bathroom furniture includes storage space below whilst the basin sits above. Wall hung furniture means the furniture is off the floor, giving the impression of extra space and a sleeker more stylish bathroom which is easy to clean and ideal for a busy family bathroom. Cloakroom units maximise space in smaller rooms. All Crosswater wall mounted furniture is fully load bearing to a minimum 100kg.

Floor standing bathroom furniture can come with cupboard doors or drawers. These units maximise storage by going right down to the floor and can also have the benefit of hiding any unsightly pipework. All Crosswater premium furniture units are supplied pre-assembled and constructed from extremely strong 18mm board.

Additionally, mirrored cabinets are available and combine two must-haves in one, plentiful space for regularly used toiletries or other smaller items that might get lost in larger cupboards and prerequisite over basin mirror ideal for helping with make up and shaving. If it's just a simple cabinet or mirror you require, Crosswater has a wide selection of standard and illuminated versions.

Wall Mounted

Floor Standing

Wall Mounted with Mirror Cabinet or Mirror above

Tower Storage Unit

step 2

CHOOSE A FINISH

Crosswater offers many styles to match either a modern or traditional bathroom design perfectly. Contemporary bathroom furniture is often white and frequently glossy in finish, which will reflect light to make a small bathroom feel bigger. Like white sanitaryware, furniture in this colour is also a neutral backdrop which allows you to add colour with towels and other accessories.

Striving for something different? Look out for Crosswater furniture in Storm Grey Matt, Blue Smoke Matt, or Quartz, which are all finished with a tough protective lacquer and offer a striking contrast to the basin and toilet. Alternatively, consider adding a more natural feel to your furniture with a choice of seven wood-look laminate finishes or real wood veneer options. All add a warm contrast to rooms that are predominantly white.

ACTIVE*

Some finishes feature as standard a ground-breaking non-toxic and permanent antibacterial treatment called ACTIVE guarantees unlimited protection as the treatment is permanent and under tests reduces the proliferation of common bacteria by more than 99%. You can identify these by looking out for the following icon.

REAL WOOD VENEER

All Crosswater real wood veneer furniture finishes are produced from sustainable sources with a specially formulated anti-UV varnish to prevent the wood from fading. The unique nature of real wood veneers means there will always be variance in tone, grain and colour appearance. This is just part of the enduring beauty of real wood veneer furniture but does mean that when ordering you should consider ordering all components at the same time to get the best chance of sourcing products from a similar batch.

WARRANTY

All Crosswater furniture carries a reassuring 5-year warranty. However, some ranges offer a longer 10-year warranty. These ranges feature higher moisture-resistant qualities using polyurethane adhesives on the edge finishes. These adhesives are also used in garden furniture and double-glazed window units where water resistance is critical and also offer a further benefit, a virtually invisible 'zero bond line'. This technology delivers outstanding thermal stability and excellent adhesion for a long life.

Choosing your Basin

Crosswater basins are available in wide range of styles, installation types, materials and finishes.

In our premium 'Gallery' collection finishes range from timeless gloss white, modern matt white and grey, to stunning platinum, and the beautiful Carrara Marble and Travertine effect.

Crosswater Gallery basins use materials such as fine fire clay allowing for more complex designs and super-slim edge profiles, cast marble which offers a wide range of colour finishes and super strong scratch proof PLUS+TON®. All Gallery basins are stain-proof, limescale resistant, anti-bacterial and 100% recyclable.

ideal for worktops

COUNTERTOP

Countertops basins are the ideal choice if you want to create a luxury style. Available in a range of shapes, this type of basin has been designed to be fitted on top of a worktop or solid surface, Crosswater's offer includes ranges with a tap hole and some without. No tap hole variants are usually teamed with a tall monobloc or wall mounted mixer tap.

Tall Monobloc

Wall Mounted

flexible design

BACK TO WALL COUNTERTOP AND WALL MOUNTED

Many of our wall hung basins are perfect for use as a countertop basin on furniture when fitted directly against a wall in addition to being used as a normal wall hung basin. These basins have the flexibility of having a tap hole to match up with a standard monobloc mixer tap. A wide ranging selection of sizes, styles, and bowl depths to choose from whatever your bathroom requirement.

Countertop

Wall Hung

minimal look

UNDERMOUNT & INSET

Undermount and inset basins are a favorite in many high end hotels, offering a simple yet stylish appearance with plenty of worktop space for taps, toiletries and soaps. Worktops need to be pre-cut to accept the basins and are secured to the underside of the worktop using metal brackets and silicone.

Deck Mounted 3 Tap Hole with Undermount Basin

Monobloc Mixer with Inset Basin

BASIN WASTE OPTIONS

Depending on your design preference your basin will either have an inbuilt water overflow or not. It's important to choose the right waste to suit your basin as follows:

If your basin has an overflow, it will require a slotted basin waste to allow the water to flow into the waste. If you have no overflow on your basin, you need an unslotted waste.

Crosswater also offer a universal waste which is compatible with most slotted and unslotted basins. Please use the matrix on the following page to ensure you select the correct waste.

Slotted

Unslotted

Universal

Crosswater taps

COMPLEMENTARY BRASSWARE

Selecting the right tap for your basin is essential to achieve your desired look and performance. Always select the basin before the mixer fittings and ensure you choose a washbasin that can accommodate the style and size of your choice of mixer. When choosing a basin and mixer, consider your water pressure. Higher water pressures or pumped water supply systems will influence the suitability of your chosen tap and basin, so take note of your water pressure. A high pressure reducing valve or flow restrictor will give you added flexibility.

Choosing your Toilet

Crosswater toilets are available in many design styles so you can easily create a look that's perfect for your bathroom.

Each toilet is made from 100% non-porous vitreous china and is designed to conceal all pipework for a clean and simple design. Crosswater toilets meet all required performance and quality standards. All Crosswater toilets have matching soft close seats and covers which are sold separately.

Along with Matt White, the range offers Gloss White and a Platinum finish.

easy installation

CLOSE COUPLED TOILETS

Close coupled toilets, once the most common due to ease of installation consist of 2 parts, where the cistern including flushing mechanism is fitted directly on top of the toilet pan. In our premium collections all close coupled toilets have a closed back to wall design to conceal pipework from view, ensuring a neater finish and easier cleaning and all feature efficient dual flush mechanism.

maximise space

BACK TO WALL TOILETS

Floorstanding back to wall toilets do not need any type of support frame as they are fitted to the floor and allow the toilet to have a smaller footprint in order to maximise room space. They do require the a cistern to be built into the wall or installed inside toilet furniture. Back to Wall toilets offer the best solution for a straight replacement of a close coupled toilet.

Details on Crosswater's range of concealed cisterns and toilet furniture can be found on page 208.

Concealed Cistern
(In wall)

Concealed Cistern
(Toilet furniture)

modern look

WALL HUNG TOILETS

Wall hung toilets feature all the space-saving benefits of a back to wall toilet and are designed to be fitted with a supporting installation frame which contains an in-built cistern. These frames can support a weight of up to 400kgs for complete peace of mind and allow the user to adjust the height of the toilet to suit all the family. Details can be found on page 200.

Raising the toilet off the floor creates the illusion of even more space and promotes better hygiene by making cleaning the bathroom easier.

The in-wall frame can be installed in a wall cavity, or using one of our toilet furniture units on the wall removing the need for costly installation.

Smart rimless design

EASIER CLEANING & IMPROVED HYGIENE

The Crosswater toilet range presents many different and often unique styles. Some feature a tried and tested closed/box rim providing great bowl flushing.

The latest ranges are offered with a smart 'rimless' bowl format. Rimless design means 100% of the flush water is used to clean the bowl also creating not only a better looking toilet but more importantly, one which is easier to clean, resulting in much better hygiene as there is nowhere for bacteria or lime scale to accumulate, no matter whether you choose a Gloss White or Matt White glaze.

SOFT CLOSE SEATS

All Crosswater toilets feature ergonomically designed, stylish whisper-quiet soft close seats and covers, colour matched to the ceramic. Produced from high quality materials, Crosswater seats remain whiter for longer and are easy to clean.

FURNITURE FOR BATHROOMS

smarter storage

Whatever your bathroom requirements, there is a storage solution to suit all. From basin units to tower cabinets, create a space that is big on practicality with our extensive furniture range.

Waldorf ✕

A TRULY EVOCATIVE
COLLECTION

Classic in its inspiration, Waldorf is a truly evocative bathroom collection. Combining exquisite craftsmanship with early twentieth-century styling, each Waldorf piece has been expertly designed to represent the ultimate in bathroom luxury.

Evoking a timeless feel, elegant curves are blended seamlessly with the era's signature angles to offer a superlative range of bathroom furniture, brassware and ceramics. Beautiful finishes are combined with exquisite detailing to create Waldorf's signature style that caters perfectly to advocates of traditional design.

TRADITIONAL DESIGN & STYLING

A beautifully classic collection that exudes traditional design and time-honoured styling, Waldorf blends angular lines with elegant softened edges, resulting in a wonderfully distinctive look that will stand the test of time in any bathing space.

Presented in a refined choice of classic gloss white, or dramatic piano black finishes, the collection's vanity and furniture units are perfectly set with fine detailing such as exquisite bevelled edges, and a choice of classic round or bow drawer handles. Coordinating beautifully with the selection of Waldorf high-shine chrome brassware, the collection is complemented alongside a selection of mirrors and bathroom accessories, all sympathetically curated in the style and essence of the 20s era.

Furniture shown: Arena Modern Oak Tap shown: MPRO Accessories shown: MPRO Flush Plate shown: Arena

Create a warm and inviting bathroom ambiance

This wood-like finish creates a warm and inviting bathroom ambiance. Each piece features authentic elements including knots, inclusions and chalky limed accents. Finished with matching edging and a birchwood drawer set. Paired with brushed brass handles and brassware, you can create a modern twist on a natural finish.

The Steel finish has a subtle brushed texture with a linear grain, providing a modern twist on a natural finish. The blend of silver, grey and white gives a unique look with a touch of individuality, completed with an easy clean anthracite finish drawer box. Pair this finish with chrome, matt black and brushed stainless steel handles and brassware.

A modern twist on a natural finish

A new standard in furniture basin design perfectly proportioned with understated geometric lines. Only 400mm front to back yet each size offers a generous bowl size and plentiful worktop space - the 1000mm wide basins particularly so. Produced from Fine fireclay that offers great durability and hygiene properties in addition to being the very best ceramic to produce fine basin designs.

Bright white deep gloss glaze, single or no tap hole Arena basins have an ingenious feature on the underside of the basin that allows the easiest of fit to the Arena vanity units.

Furniture shown: Arena Steel Tap shown: Wisp Towel Warmer shown: Infinity

A new standard in furniture and basin design

This silky smooth matt grey finish has anti-fingerprint properties and is scratch and impact resistant, great for a family bathroom. Portland is a medium, cool grey and its simple internal accents create a perfect match for any colour brassware, handle or accessory. The furniture comes complete with a long lasting and easy to clean textured anthracite melamine drawer box.

Furniture shown: Arena Portland Grey Matt Toilet shown: Infinity Wall Hung Tap & Accessories shown: MPRO Towel Warmer shown: Infinity Mirror shown: Glide II

Taking white bathrooms to a new level

This smooth high gloss finish reflects and maximises natural light into your bathroom. Additional UV coating technology means the surfaces are more resistant to scratches, heat, impact and yellowing, retaining the beautiful finish for longer. The plywood style décor edging and classic birchwood drawer finish adds that touch of luxury to any bathroom.

GET THE ULTIMATE
WOW-FACTOR WITH
GLASS BASINS

Reflecting light in a crystal clear finish, these glass basins set a new standard in innovative bathroom design. Following the distinctive curves of Svelte's basin units, this exquisite cast glass basin and work surface is available in two finishes.

Beautiful finishes to suit all tastes

Manufactured using the highest quality materials throughout, Svelte furniture is available in four stunning finishes. Choose from the warm wood surface of the American Walnut veneer options, or for a modern yet timeless look opt for White Gloss.

Utilising space with smart design

Making the most of every inch of space, the Svelte Corner unit is the smart choice for smaller bathrooms. A hugely practical offering that will utilise most unused corners, Svelte's elegant curves and sleek finish have been incorporated into this compact unit, without compromising on style or floor space. Deep double drawers provide ample storage for toiletries and cleaning materials, with up to 40kg capacity for heavier items, and come complete with soft close runners to provide a smooth and quiet closing motion.

Understated appeal in Storm Grey Matt

Combine the relaxed tones of Storm Grey Matt with the new, solid surface marble-effect worktops. Perfect for creating a luxurious finish, this latest addition is available across all Glide vanity sizes.

coordinating finish

STORM GREY MATT BASINS

Our PLUS+TON® Storm Grey Matt basins are the perfect complement to the Storm Grey furniture. Match with Chrome, Brushed Stainless Steel Effect or Matt Black brassware for an added design touch.

Combining the sleek design and generous storage capacities of our popular GLIDE II furniture collection, the stunning new Windsor Oak finish beautifully showcases the natural beauty of wood in a functional and coordinating range of bathroom storage solutions.

HANDY FOR ALL
BATHROOM ESSENTIALS

Featuring ample storage options, you can create an enjoyable space for all of the family to share. For a clutter-free environment and a place for all the family's essentials, there are multiple layout concepts that sit neatly inside the pull out, soft closing drawers.

Glide II

Contemporary lines and an elegantly curved recessed handle are combined to bring you this functional yet stunning vanity unit. Presented in the new, pared-back Storm Grey Matt finish, the unit features the unique anti-bacterial surface, ACTIVE. Choose from a variety of complementary sinks styles including countertop and inset.

What's your basin style?

Please note taps are not included in the published prices.

When ordering more than one American Walnut veneer unit we strongly recommend taking delivery of products at the same time. This is genuine wood veneer, manufactured in carefully controlled batches to achieve as close a colour and tone match as is possible with real wood.

the ideal match

To achieve a coordinated look in the bathroom, complement your Glide II basin unit with a matching Toilet furniture surround in the stunning Blue Smoke finish. Choose from a floor mounted unit or wall-hung option, and combine with the range of contemporary flush plates and Crosswater suites for a complete bathroom look.

Seattle

A flexible and accessible design with an abundance of internal layouts, Seattle is the perfect bathroom storage solution. The low back drawer design enables the internal drawer space to be arranged in a formation that suits your lifestyle and storage needs. For a streamlined space that remains clutter free, retreat to a relaxing space that is both welcoming and practical.

We offer a breadth of basin styles to pair with your furniture unit.

For more information, see page 124.

10 YEAR GUARANTEE

Our Elite and Seattle furniture ranges are manufactured using high-quality PU adhesives. This results in exceptional resistance to temperature change, water and chemicals, extending the life of the item. See online for more details.

Solo

A high-gloss, soft grey finish blends perfectly with white bathroom suites and enables you to experiment with coloured walls or tile features. With its neutral tones, the quartz vanity unit will also complement a monochrome theme with style. Its light tone and gloss finish reflects light and creates an illusion of more space in compact areas or bathrooms.

BASINS

curve appeal

A style statement for bathrooms, opt for elegance when it comes to picking your basin with our wide range of countertop, wall-mounted and inset styles.

Basin & Furniture Compatibility

*We want your bathroom to be completed just as you had imagined.
To ensure your basin is compatible with the furniture you've chosen,
use the matrix opposite.*

COMPLEMENTING RANGES

To ensure your bathroom functions and looks as good as you have expected it to, we have carefully selected ranges that not only complement each other beautifully, but ensure that their designs are also compatible. For a truly harmonious scheme, browse the ranges in the table opposite to help you select the best ranges to suitably mix and match.

Gallery Basins

A collection of the finest ceramic basins.

Our new collection of beautifully formed 'Gallery basins', inspired by ancient fine art, offer a pioneering ceramic design with stunning aesthetics.

The premium 'Gallery' collection finishes range from gloss white, matt white and grey to stunning platinum, beautiful cast Carrara Marble and Travertine.

Crosswater Gallery basins use materials such as fine fire clay allowing for more complex designs and super-slim edge profiles, cast marble which offers a wide range of colour finishes and super strong scratch proof PLUS+TON®. All Gallery basins are stainproof, limescale resistant, anti-bacterial and 100% recyclable.

A TRADITIONAL TOUCH

Not only useful for optimising any available surface space, inset basins are also a great choice for showing off a classic stone worktop and complementary basins taps, like these from our beautiful Belgravia collection. See website for more details.

Basin Wastes

Our basin wastes can be fitted with ease into either slotted or unslotted basin styles. Truly versatile with little maintenance, they will work with a variety of basin materials including thin ceramic, cast marble or glass.

suite dreams

Sanitaryware that does not compromise on aesthetics, our beautifully crafted range of suites combines form and function for everyday use. All of our Premium ceramic sanitaryware is manufactured in Italy yet designed specifically for use in UK bathrooms.

The perfect blend of expert hands, clay, water, air and fire.

AXENT

SWITZERLAND

THE LATEST INNOVATION IN **BATHROOM HYGIENE**

AXENT.ONE is a new generation shower toilet with a series of exceptional functions that can all be controlled using a single knob. It makes everything superfluous obsolete.

Nothing is as hygienic as cleaning with water. It gives us a sense of vitality and vigour. It has the power to heal, restore and rejuvenate. We shower in the morning, bath at night and wash our hands in between. Feeling clean is a part of our lives and is almost as natural as breathing itself. Why then, do we give much less consideration to how we cleanse ourselves after we use the bathroom?

Introducing AXENT.ONE - the hygienic way to stay really fresh. All day.

MINIMISED TO PERFECTION

Design is not just about what looks good. Design needs to perform, convert, astonish, and fulfil its purpose. It might be innovative, or it might simply get the job done. We believe in the principle of delivering simplicity through complexity. Perfection is not having nothing more to add, but having nothing more you can take away. AXENT. ONE is a new generation shower toilet with a series of exceptional functions that can all be controlled using a single knob. It makes everything superfluous obsolete.

reddot award 2015
winner

CLEAN BY DESIGN

AXENTONE redefines modern toilet hygiene and transforms a bathroom into a sanctuary of luxury. The stain resistant surface and the rimless profile help eliminate bacteria, making it easier to keep everything clean. The toilet lid and cover, if heavily soiled, can easily be removed, cleaned and remounted.

AXENT's compact design means that the shower toilet will fit into just about any household setting. It also hides unsightly plumbing and helps reduce water consumption. Cleverly, it uses about the same amount of water as a modern low-flush toilet, so it is not only kind to the environment, but also helps reduce your water bill.

To remove the lid and cover for cleaning purposes, simply place them in an upright position and then lift to remove.

CONTROL AT YOUR FINGERTIPS

True icons never set out to be iconic. They just are. This award-winning shower toilet brings style to your bathroom. A single control regulates the position and flow of the shower spray, as well as the water temperature. Located discreetly to the right of the toilet bowl, this control is as easy to use as the crown on a Swiss timepiece.

The AXENT Smart Control app can control any AXENT.ONE shower toilet. Use Bluetooth to connect your mobile device and use it like a remote control.

AXENT.ONE

SOPHISTICATED SIMPLICITY

WASH FUNCTION

A strong but gentle water spray washes you while you are seated on the toilet. The temperature and intensity of the spray can be adjusted easily at the touch of a button.

SELF-CLEANING

AXENT.ONE is equipped with a nozzle that is cleaned automatically with fresh water before and after every use, for a more hygienic experience.

WATER TEMPERATURE

For water temperature adjustment - simply pull out the multifunction knob, turn it and wait for two 'beeps' to sound.

RIMLESS BOWL

The rimless design and stain-resistant surface make the AXENT.ONE easy to clean.

NIGHT LIGHT

The energy saving LED light provides comfortable lighting at night.

AXENT.ONE PLUS

ADDITIONAL COMFORTS

WARM AIR DRYER

Use the remote control to adjust the temperature of the warm air dryer. The resulting gentle airflow across your skin leaves you feeling clean, fresh and dry.

SEAT HEATING

To maximise your comfort as the seasons change, the seat includes adjustable heating that can be set to your individual needs. An integrated sensor detects your presence on the seat and, if set to heat, starts to warm immediately.

DEODORISER

Once the sensor in the shower toilet seat recognises that you are sitting down the automated deodoriser activates. Utilising the latest diatomite filtration technology, the deodoriser neutralises odours rapidly, enhancing your experience and improving your overall wellbeing.

MASSAGE FUNCTIONS

The oscillating shower spray, for rear and feminine wash, provides a thorough, comfortable clean. The gentle spray is pleasant and soothing, and you can easily adjust its position and temperature.

NEW

Glide II

A new level of bathroom sophistication.

The quality, precision and refined proportions create beautiful shapes which complete the Glide II bathroom collection enabling real design consistency. As well as standard sizes Glide II toilets are available in an equally comfortable 'mini' variant which is a little wider but has 2" shorter projection for rooms where optimising space is critical.

Selected Glide II toilets are offered in a smooth and durable Matt White ceramic which provides a more luxurious and warmer feel. To complete the look a matching matt white soft close, whisper quiet seat and cover are available.

The smart rimless design creates not only a better-looking toilet but more importantly a cleaner and more hygienic toilet as there is nowhere for bacteria, limescale and grime to accumulate. Additionally, all Glide II toilets feature fully glazed internal waterways delivering complete cleanliness.

Pier

Short projection toilet for the smallest of spaces.

Small bathrooms no longer have to compromise when it comes to great design and first-class function. The Pier toilet, a contemporary yet very simple toilet, has the shortest projection on the market at a minimal 43cm. Not only compact, the seat is still extremely comfortable and fits perfectly in limited spaces, whilst the high-function flush performance is as good as it gets.

Introducing an innovation in ceramic glaze technology, Pier is expertly crafted from CERASLIDE®; a forward-thinking firing process that ensures the perfect surface consistency to resist stains, limescale, daily wear-and-tear and assist with flush performance. Teamed with the BATAFORM® anti-bacterial treatment, the combination ensures an impeccable level of hygiene alongside a luxurious gloss finish, ensuring all round wellbeing in the bathroom.

Rimless technology

Rimless technology uses less flush water than a standard toilet so provides significant water savings for a normal family every day of the year. The dynamic motion of the water results in perfect toilet bowl cleaning with every flush with 100% of the water being used.

The innovative rimless design and fully glazed internal waterways means there are no hidden corners or holes, making cleaning your toilet much easier, and quicker for maximum hygiene and cleanliness.

layout versatility

COORDINATING TOILET FURNITURE

To achieve a modern look that beautifully complements the Wild range, the coordinating toilet furniture streamlines the entire space and conceals unaesthetic working parts of cisterns. With only the beautiful flush control on display, toilet furniture offers a clutter-free solution that adds an element of clever design combined with style. Easy to install, there is a choice of frame sizes to suit larger rooms and ultra slim designs for those seeking a more sleek, minimalistic look.

**Smart rimless design**

All Wild wall and floor mounted toilets feature a streamlined rimless bowl – no rim means there is nowhere for germs and limescale to hide, making it ultra hygienic and effortlessly easy to clean. The latest fluid flush mechanisms also provide a powerful horizontal and vertical water stream to ensure coverage across the entire surface of the bowl without splashing.

Support Frames & Cisterns

Our support frame and cistern range is designed specifically for UK homes, featuring an array of innovative designs and installation features, which is why our products are renowned for excellence in design and quality.

layout versatility

SYSTEMS FOR ANY SIZE BATHROOM

Whatever the size or shape of your bathroom, Crosswater fitting systems can be utilised in any bathroom to safely install a toilet that suits your lifestyle. The smart and versatile systems mean that you can take your design aspirations and make them a reality. Easily install a toilet right next door to a shower by having the cistern concealed in a wall, or fit the Toilet into an awkward corner with the ingenious angled bracket. The back-to-wall toilet is perfect for complementing the toilet cisterns when concealed within furniture or a cavity.

See page 200 for Wall Hung Toilet Frames.

simple installation

SYSTEMS FOR ALL SURFACES

From large new build family bathrooms to modernising a bijou en suite, the ease of installing Crosswater flushing systems ensures that your project runs smoothly. Time and cost effective, frames can be built into a wall cavity or placed in front of a wall using a clever cistern surround. If you want to tile a wall, select a waterproof frame surrounds that can also be tiled. Alternatively, for a completely harmonised bathroom scheme, simply choose a surround to match your Crosswater furniture.

Concealed Toilet Cisterns
see page 202

wall hung support frames
SPACE SAVING DESIGNS

Wall mounted toilets are becoming the favoured choice of style-savvy homeowners and designers. Open up the smallest of spaces or enhance larger bathrooms by creating more floor space, which instantly creates the illusion of space. For busy family bathrooms, it is also quicker and easier to clean.

See page 200 for Wall Hung Toilet Frames.

efficient

QUIET & ECO-FRIENDLY

As with all Crosswater products, installation systems offer an array of outstanding features and benefits. All cisterns are extremely quiet with an option to install pads to deaden any sound even further. They also feature dual flush technology so you can choose how much water you use, which can also cleverly help you to save even more water by simply adjusting the larger flush to the reduced water volume setting. Plates are available in a choice of designs and colours to complement your bathroom scheme and to suit your taste.

Press the large button and flush with the entire water volume.

Press the Eco button and flush with a reduced three-litre volume.

CHOOSE DUAL FLUSH TECHNOLOGY
AND USE UP TO **40% LESS WATER**

Wall Hung Toilet Support Frames

Wall mounted furniture cleverly makes a compact bathroom appear less cluttered and more spacious. There is a range of frame sizes to suit larger rooms and a ultra slim designs for those seeking a more sleek, minimalistic look.

Epoxy power coated steel frame, tested to take up to 400kg weight

Large feet for easy rear fixing (specially designed for UK timber floor)

Supplied complete with all fittings for installation

Adjustable feet with rubber sound deadening pads

Full UK specification to Class 2

Easy install wall brackets for vertical or horizontal fixing

SMART DETAILS

There is a wide choice of flush plate styles available to beautifully complement any bathroom design. Completing a well-dressed bathroom, look to match brassware, toilet contours or décor, to suit your own personal taste. Compatible to both framed and concealed cisterns, they feature an ingenious yet simple connection method to ensure high performance and functionality every time.

An eco friendly option, the dual-flush function helps you reduce water consumption, whilst cisterns are supplied at 6 and 3 litres for further water saving capabilities. Part G compliant to meet water consumption regulations, all cisterns can be easily adjusted to reduce the larger flush volume to 4.5 litres after installation.

MIRRORS & CABINETS

on reflection

Essential for every bathing space, our design-led collection of mirrors and mirrored cabinets caters to both the practical and decorative requirements of the bathroom.

Illuminated Mirrors

The ultimate bathroom essential, no bathing space is complete without an illuminated mirror to assist with daily routines.

HEATED DEMISTER PAD

Most of the mirrors come with heated demister pads, making steamy mirrors a thing of the past. These pads heat the mirror to a few degrees above room temperature within 2-3 minutes, preventing the mirror from misting in even the steamiest of bathrooms. The demisting effect will spread approximately 10-20% further than the pad itself.

NO TOUCH INFRARED ON/OFF SWITCH

All Crosswater mirrors are equipped with a no touch infrared on/off switch situated on the side of the mirror, thus removing fingerprints from the mirror surface or pull switch.

IP44 RATED CLASS 1 RATED

All mirrors are IP44, Class 1 rated and suitable for installation in Zones 2 and 3 of a bath or shower room. See page 260 for more information on electrical safety and installation.

5MM MIRROR GLASS

PVC film backing safety glass complying to EN6206:1961 that avoids dangerous shards being created in case of an accident. A special treatment is also applied to the mirror edge that prevents the risk of mirror edges becoming discoloured.

LED LIGHTING

Providing superb function with fabulous decorative style, all mirrors feature the latest high luminosity, low energy consuming LED lighting. Cool White 6400k.

5 YEAR GUARANTEE

The majority of our illuminated mirrors come complete with a 5 Year Guarantee, which covers all manufacturing defects.

EXTRA FEATURES ON SELECTED MODELS

Bluetooth® speakers

Dimmable lights

Shaver socket

Important notes

Mirrors must be mounted so that the sensor switch is a minimum of 150mm from an adjacent wall or obstruction to ensure function of the sensor switch. If a mirror is mounted portrait, the sensor is located on the bottom right hand edge of the mirror. If mounted landscape, the sensor switch is located on the bottom left hand corner. All mirrors are IP44, Class 1 rated and suitable for installation in Zones 2 and 3 of a bath or shower room, see page 252 for more information on electrical safety and installation.

Glide II

A new range of mirrors featuring modern technologies, perfect for creating an optimum bathroom experience. In Glide II latest LED technology allows the user to change the colour temperature of the mirror from warm white to day light and every shade in-between to create your perfect bathroom ambiance whatever your mood. The demisting feature and charging socket for your toothbrush or a shaver completes this lovely bathroom mirror.

Mirrored Cabinets

Store away those everyday bathroom essentials discreetly and safely with our range of stylish mirrored cabinets.

ALUMINIUM CARCASS

Fully rigid, strong, easy to maintain, anodised aluminium carcass, perfect for use in humid bathroom conditions.

LED LIGHTING

Near natural truly practical low energy light source. No-flicker instant on and off illumination. IP44 rated. Cool White 6400k. (except Non-electric 60)

DOUBLE SIDED MİRRORED DOORS

Really practical head and shoulders height viewing. Double sided enables you to apply make up and shave even when the door is open. The mirror's edges are sealed to minimise the possibility of moisture damage.

SOFT CLOSE DOORS

Clatter and clunk free closing with fully adjustable soft closing hinges.

NO TOUCH INFRARED ON/OFF SWITCH

High-tech sensor switch, so no unsightly pull cord, discreetly positioned underneath the cabinet for simple use. IP44 rated. (except Non-electric 60)

5MM MIRROR GLASS

PVC film backing safety glass complying to EN6206.1961 that avoids dangerous shards being created in case of an accident. A special treatment is also applied to the mirror edge that prevents the risk of mirror edges becoming discoloured.

CONTINUOUS SHELF HEIGHT ADJUSTMENT

Intelligent shelf height adjustment allowing shelves to adjusted to any height, without unsightly drilled holes.

5 YEAR GUARANTEE

The majority of our mirrored cabinets come complete with a 5 Year Guarantee, which covers all manufacturing defects.

EXTRA FEATURES ON SELECTED MODELS

Heated demister pad

Shaver socket

Chrome door pull

Important notes

All cabinets are IP44, Class I rated and suitable for installation in Zones 2 and 3 of a bath or shower room, see page 252 for more information on electrical safety and installation. Cabinets conform to BS EN 60598-1:2008+A1: 2009 and BS EN 60598-2-1:1989. Fluorescent feature electronic ballast, and are fast on off with minimal flicker effect.

Image

Beautiful outside, intelligent inside.

The Image range of bathroom cabinets sets new standards with innovative technology, classic design and proportions which contain ample space for all your storage needs. Each Image cabinet features double-sided fully mirrored doors for comfortable and expansive head and shoulders viewing. The full-width overhead LED light canopy provides outstanding brightness that can be changed from warm to cool to suit your mood. An extra LED light source illuminates the tap and basin on the underside of the cabinet.

Open the cabinet and find height-adjustable safety glass shelves with a stunning fully mirrored back. Additionally, the very latest LED technology appears on each interior side of the cabinet lighting to illuminate all your favourite items. Image cabinets also include a charging socket for shaver and toothbrush.

Summer Heating Elements

Also known as dual fuel or dual energy. Connected to a central heating circuit and including an electrical element that allows operation in summer months when the central heating is not in use.

Chrome heating elements

FUNCTIONALITY

These heating elements use the latest intelligent heating and safety technology. Featuring two temperature settings of 45°C or 60°C, an in-built electronic temperature sensor ensures precise control with a smart 2-hour timer featured as standard. Simple to use with a single control button for all functions, the device displays its current operating mode using multi-coloured LEDs. The heating element has very low power consumption when in standby mode 0.5w.

SAFETY

Featuring an active safety feature that initiates in the event of dry radiator operation, the heating element is equipped with a temperature sensor and thermal fuse (double overheating protection). The element will display warning indicators in the case of malfunction. Rated I, IPX5.

SLEEK AND UNOBTRUSIVE

A subtle add-on to your choice of rail, the elements fit easily inside the rail, blending seamlessly with the collector profile so becoming an integrated part of your towel warmer.

Chrome Heating Element 300w
RADX300C £210.00

Chrome Heating Element 600w
RADX600C £210.00

These elements are suitable for all Crosswater towel warmers, where an element can be fitted.

Standard heating elements

Electric Element 150w
RADX300 £80.00

Electric Element 300w
RADX350 £85.00

Electric Element 600w
RADX700 £99.00

All Summer heating elements are IP54 rated. These elements can be used in an all electric installation, we do not offer this service.

Summer heating elements are supplied with T Piece.

Please refer to the bathroom zone diagram when using electrical components within the bathroom environment, see page 252. The summer element is equipped with a thermal fuse that will cut out at 65C, with a total shut down safety setting at 78C.

These elements are suitable for all Crosswater towel warmers, where an element can be fitted. Heating elements comply with BS EN60335-2-73:2003

Metallic Black Matte / Soft White Matte Finishes Oxsilan® providing up to 65% more protection than standard zinc coating. High quality double layer Electro-static powder coating application for 100% surface coverage, massively reducing wear and tear and greater product lifetime. The most efficient heat output up to 20% higher than chrome. Self coloured metal wall fixings.

Chrome Finish Oxsilan® providing up to 65% more protection than standard zinc coating. Each rail is 100% wheel polished and sandblasted then electro chemically de-greased and bleached to prevent oxidising, ten: Nickel Primer 3micron / Copper coat 20-25 micron (for flatter surface and enhanced protection) / Nickel 20-25 micron / Chrome finish 0.5 micron - Result level 10 chrome plated finish.

Towel Warmer projection is between 75 - 100mm. Supplied with complete wall fixings and manual air vent. Manufactured from high grade mild steel conforming to EN 10305. Geometrical and surface finish - Round EN 10234 / EN ISO 4287, Flat Tube EN 10233 / EN ISO 4287, D Profile EN 10233 / EN ISO 4287. Fitted with 1/2" BSP connections. Tested to EN 442 ∴ T = 50K All outputs certified to EN 442. To make an approximate conversion from T=50K to T=60K multiply outputs by 1.2.

****Summer Heating Elements are supplied with T Piece.**

Electrical Information

The diagram below is supplied as a guide to Bathroom Zones as referred to in IP ratings of the over mirror lamps and electric heating elements. Please refer to the latest edition of BS 7671:2008(2011) to ensure conformity.

It is important to install light fittings and electric Towel Warmer elements in the correct bathroom zone i.e. the zone referred to in the IP rating of the element. This is not an installation guide and reference should be made to the latest edition of the IET Wiring Regulations or a qualified electrician member of NICEIC or IET.

Zone 0 is inside the bath or shower tray itself. Any appliance used in this zone must be rated at least IP67 which is total immersion proof.

Zone 1 is the area above the bath or shower tray to a height of 2.25m from the floor. In this zone a minimum rating of IP44 is required and elements must also be protected by a 30mA residual current device (RCD) to protect the circuit. The electrical connection to the power supply for these appliances must be in Zones 2/3 of the bathroom in compliance with BS 7671:2008(2011) - IEE Wiring Regulations.

Zone 2 is an area stretching 0.6m outside the perimeter of the bath and to a height of 2.25m from the floor. In this zone an IP rating of at least IP44 is required. In addition it is good practice to consider the area around a washbasin, within a 60cm radius of any tap to be considered as zone 2.

Crosswater IP44 lamps come without a pull switch, and are designed to operated via an existing and suitable room light switch.

Failure to have electrical products installed and certificated by a qualified electrical engineer will invalidate any product guarantee.

For full details reference should be made to the latest copy of the IEE wiring regulations and all applicable British Standard and European norm specifications.

Information

Errors & Omissions

In the interest of continuing design and development and product improvement, Crosswater reserve the right to change colour, designs and product specifications without prior notice.

Product Compatibility

Whilst the majority of Crosswater products are compatible, care should be taken on product selection prior to ordering to avoid installation issues. Technical drawings are available on our website or on request.

General

The colours and finishes reproduced in this brochure are as accurate as the photography and printing process allows but may vary from the actual colours. Product sizes stated are nominal and should be checked against product. It is strongly advised that all bathrooms are well heated and ventilated.

It is the responsibility of the individual installer to ensure that these products are fitted correctly and in line with the instructions provided. Failure to comply with the recommended fitting instructions will invalidate the guarantee.

Easy Installation

All furniture ranges incorporate a factory fitted hanging system that allows safe and simple installation. Please ensure the correct wall fittings are used on solid or stud walls. Some furniture products are reversible for left or right hand door opening.

Installation Notes

When installing a wall hung pan or wash basin please ensure that appropriate fixings or suitable framework are used. When purchasing a wall hung pan, wash basin or bidet on its own Crosswater does not supply any fixings. We strongly recommend all furniture and ceramics be fitted to a tiled surface, not tiled up to, this will assist any future maintenance. Due to the weight of some products you must ensure that the walls to which fixing is to be carried out are of a suitable construction to support the product.

Suites and Basin Ceramics

Vitreous China is an extremely hard, non-porous product; but it is also breakable and therefore must not be put under stress during installation. Basin waste fittings if over tightened will create stress within the ceramic material which may in time cause the failure of the product. Waste fittings should be carefully sealed in silicone and the back nut hand tightened, one additional and final quarter turn using a suitable spanner is sufficient to create the required watertight seal. Care should also be taken when fitting brassware to tap platforms in order to prevent similar stress related failures. All products should be inspected before attempting installation.

Care and Cleaning

Furniture, ceramic, glass, accessories and radiators are made to the highest standards, by following the simple guidelines below will provide you with many years of enjoyable service.

General:
NEVER use products containing bleach, caustic soda, cleaners of a gritty or abrasive nature or so called "glass and mirror" cleaning products.

Furniture:
Apart from regular wiping off the furniture units can be cleaned with a moist soft or micro fibre cloth. Any stubborn marks can be removed with diluted mild detergent e.g. washing up liquid.

Mirrors, cabinets and light fittings:
Clean only with a micro fibre cloth, NEVER use "glass and mirror" cleaning products
Sanitary ware, toilet seats, glass basins and ceramics:
Sanitary ware/ceramics should be cleaned after use by applying a little cream-type cleaner using a sponge or damp cloth and rinsed thoroughly with clean water. In hard water areas a good quality lime-scale remover can be applied.

Toilet seats should only be cleaned using a diluted mild detergent e.g. washing up liquid or warm non-abrasive soapy water; products containing bleach can lead to staining. Toilet seat hinges should be cleaned ONLY using a moist soft or micro fibre cloth. Any stubborn marks can be removed with diluted mild detergent e.g. washing up liquid.

Cast mineral resin basins:
The high gloss polished finish is easily cleaned using a diluted mild detergent e.g. washing up liquid or warm non-abrasive soapy water; in hard water areas a good quality lime-scale remover can be applied. Accidental spillages of household chemicals, nail polish, hair dye should be removed immediately, clean the surface with warm soapy water and wipe dry.

We recommend regular application of Crosswater Mineral Basin Cream Polish SD150RW this will assist in preventing the build up of lime scale and retain the gloss lustre.

Towel Warmers:
Should be cleaned when cold with a moist soft or micro fibre cloth. Any stubborn surface or oxidation marks can be cleaned with Maas® Metal Polishing Crème, that will leave a long-lasting, fingerprint-repelling protective finish.

Product Guarantee*

All Crosswater products unless otherwise stated carry a 15 year guarantee, which covers all manufacturing defects. This guarantee does not cover damage during fitting or misuse.

- The guarantee is only available to original purchasers who have proof of purchase.
- If the product has been installed, Crosswater must be given the opportunity to inspect the product in the installed condition.
- If the product is defective in materials or manufacture the original purchaser must contact our Technical Department within 30 days of the fault occurring. If the fault is not resolved the goods should be returned to Crosswater and at our discretion we will refund the purchase price, repair and return the goods to you or send new goods or parts to you as a replacement, this shall constitute our sole obligation under this guarantee.
- Due to a continuous development program. If in our opinion the product has failed under the terms of the guarantee and a replacement is offered but identical goods are no longer available, Crosswater will replace it with our nearest equivalent product.
- This guarantee covers normal use; it does not cover faults caused by incorrect installation, wilful damage, neglect, misuse, modification, inappropriate cleaning, accidental damage and other events outside Crosswater control.
- The guarantee does not cover any product that has been altered or modified in any way without the prior written consent of Crosswater.
- If a claim is made under this guarantee, and the defect is not due to faulty materials or manufacture, Crosswater reserve the right to charge the customer at the current hourly rate in respect of any service engineer time.
- The guarantee is only valid for products purchased, installed and used in the United Kingdom.
- The guarantee does not cover ex-display units.
- The benefit of this guarantee cannot be transferred to a third party.

The guarantee is in addition to and does not affect your statutory rights.

In the interest of continuing design, development and product improvement, Crosswater reserve the right to change colour, designs and product specifications without prior notice.

*Crosswater products carry guarantees against manufacturing defects as follows:
Sanitary ware, ceramic and cast marble basins 15 years;
PU bathroom furniture 10 years, other furniture 5 years,
Illuminated mirrors, bathroom cabinets and towel warmers 5 years.
Cistern fittings, radiator valves and toilet seats 1 year.
Axent Showering toilets - 2 year guarantee on electronic components.

General wear and tear to any of the above items would be considered a specific exclusion.

Visit your local bathroom specialist.

Expertise & design

Specialist bathroom retailers can offer expert assistance with room layout design and technical considerations. Many will do this in the comfort of your own home and can provide full 3D design plans so you can visualise and create your own perfect bathroom space.

Experience the products

The purchase process is an emotional one. Specialist showrooms allow you to touch and feel a wide variety of bathroom products in relaxed surroundings whilst gaining inspiration from knowledgeable professionals who will explain the benefits of each product and make recommendations that match your personal preferences.

Reassuring aftersales care

Once your perfect bathroom is installed, local bathroom specialists offer an easy and personal point of contact for any aftersales support you may need, delivering complete peace of mind.

Need more bathroom inspiration?

For even more choice, ideas and bathroom inspiration download other Crosswater portfolio brochures at crosswater.co.uk or pick one up from your local bathroom specialist.
